

# **RULES FOR GAMES**

## **Who Is Missing**

Gather a variety of stuffed animals or dolls, and a small blanket. Place them around the room. One player will place the blanket over one of the stuffies while the others close their eyes. Now it is time to guess who is missing.

## **Find the Object**

Select a small 1 inch object, show all who are playing. Select an area i.e. living room as the play space. (this can also be taken outside) players close their eyes and sing a song while you hide the object in plain sight. Players now go looking for the object, the trick is not to show other players when you have found the object, rather return to your chair or spot then announce you found it. The other players continue to look until they find the object. The player who found it first goes and retrieves it. If they have not yet hidden the object they can now hide it.

## **Speedy Delivery Service**

Give your little one a small basket. Now gather some items that need to be delivered to other parts of the house. Call on your delivery service to get the job done.
